Subject Index
Volume 12, 1990

ABC 0.9 review, software, 471
abstinence, 107
academic problems, 179
accuracy, 91, 117, 425
  accuracy, 379
  slope measurement, reading, 179
addiction, 1, 5, 33, 53, 77, 107, 117, 253
aided recall procedures, 5
alcohol abuse, 1, 77
analysis of variance, 107, 179, 305
antisocial, 391
anxiety, 197
  medical, 195
assertion, 107
assessment of environment, 223, 471
attractiveness, 443
autocorrelation, single-subject
  single-facet, 305
aversive intervention, 107

Beck Depression Inventory, 239
behavioral avoidance test, 107
bias, 179, 305, 409
biochemical assays, 33
Body Image Assessment, 239
bogus pipeline, 5
bulimia nervosa, differential diagnosis, 179
Bulimia Test, 239
business, settings, 107, 337

child-environment variables, medical, 223
children, medical procedures, 195, 213, 371
CISS, 271
classification, 239
classification, diagnoses, 337, 379
clinic, 1, 77, 117, 239
clinic settings, 223
clinical research, 1, 77, 91, 107, 117, 195, 213, 223, 391
clique analysis, interpersonal interactions, 337
coercive mother-child interactions, 391
cognitive behavior therapy, 107
community settings, 107, 337
compliance, child, mother, 391
conceptual validity, 1, 77, 197
contingent teacher attention, 139
coping, 213
correlations, 33, 223, 317, 391
counting
  vs. estimating, 425
  vs. frequency estimation, 157
criterion-based assessment, 271
curriculum-based measurement, 179

dependent measures, 117, 223
developmental disabilities, assessment of, 267
diaries, 5
direct observation, 139, 157, 213,
  computer assisted, 139
  counts versus estimates, 157
  (see observations)
discriminant function, 239
drug users' self-report corroboration, 253
drugs, 107
duration estimation, 409
Dynastat's Kappa Program, 379

Eating Attitudes Test, 239
eating disorders, 107
Eating Questionnaire, 239
eating, 33, 107, 239
estimating vs. counting, 425
estimations, 157
  event frequency, 425
event frequency, estimation of, 425
external validity, 1, 33, 77

factor analysis, 107, 223, 317
faking good/bad, 5
family, 107, 223, 271, 391
fear assessment, 457
fear survey for children, mentally
  retarded/normal, 457
forecasting, accuracy of, 179
frequency estimation, 157, 409, 425
  accuracy of 157

functional analysis, 107, 139, 471

generalizability, 1, 77, 305
graphing, 179
graphing, 337
group designs, settings, 107

Herrnstein's Law of Effect, 139
home settings, 107, 391
honesty in responding, techniques to encourage, 107
hospital settings, 107, 195, 213, 223, 371,
hyperbolic function, 139

infant development, 371
instrument development, 5, 33, 117, 271, 371, 457
instrumentation, 213
interactionism, 223, 337
internal validity, 1, 33, 77, 317
interobserver agreement, 223, 271, 305, 379
interrupted time series analysis, 305, 355
interviewing, 5, 117, 223
intraclass correlation coefficient, 271

laboratory, settings, 107
linear models, 33

Marital Interaction Coding System, global, 271
matching theory, contingent teacher attention, 139
Matson Evaluation of Social Skills, 317
medical anxiety, children, 195, 197, 213
MICS-III, 217
MMPI, 5
mother-child interactions, 391
multitrait-multimethod matrices, 33, 271
multivariate analysis of variance, 107
multivariate-multimethod matrix, 33

nature of behavioral assessment, 33
nicotine, 107
noncompliance, 391
nonparametrics, 107, 379
normative data, 317

obesity, 107, 443
  differential diagnosis, 239
observational checklists, 213, 223, 337, 391
observations, 139, 157, 197, 213, 271, 305, 379, 391, 409, 425, 471,
observer agreement, 271
operant intervention, 107
operant choice, 139
organismic variables, 223, 471
overeater, compulsive, differential diagnosis, 179

perinatal risk and infant development, 371
Personality Research Form, 33
phobia, 457
physical disabilities, assessment of, 267
physical handicaps, 371
physiological recordings, 33, 107, 223
predictability, mother-child interactions, 391
predictive models, 371
predictor variables, 33, 197, 223, 291, 471
procedural reliability, 1, 33, 77, 271
program evaluation, 337
psychoactive substance abuse, 1
psychometrics, 33, 107, 267, 305, 347
psychophysiological measures, 107

ratings, 33, 271, 379,
RCISS, 271
reactivity, 33, 41
reading, curriculum-based measurement, 179
regression, 33, 107, 139, 223
  ordinary least squares, 179
reliability, 1, 33, 53, 77, 117, 271, 305, 379, 425, 457, 471
response covariation, 33
retardation, 337, 371
risk assessment, 371
role-playing, 197

scaling, 33, 371
school, 139, 179
  settings, 107, 317, 457
self-control, 107
self-monitoring, 239
self-recording, 91, 239
self-report
  across addictive behaviors, 1
  accuracy, 1
  corroborating by collaterals, 253
  questionnaires, 1, 33, 107, 223, 239, 253, 317, 457
    alcoholism, 77
    alternatives to, 5
    cigarette smoking, 53
    clinical settings, 107
    obesity, weight management, 91
    substance abuse, 117

validity in applied research, 5
sequential analysis, 391
situation specificity, 197, 223
slope, estimates of, 179
smoking, 107
social competence
ratings and deviant weight, 443
children, 317
social desirability, 5
social skills, 317, 337, 443
training, 107
software review, ABC 0.9, 471
split middle line of progress, 179
statistical analysis, single-subject designs, 305
subject selection, 33
supported employment, 337
systematic desensitization, 107

target behaviors, 139
selection of 33, 197, 267, 391, 471
teacher attention, matching theory, 139
teaching-training issues, 471
temporal consistency, 33
time allocation, 139
time sampling, estimating, 409
traditional assessment, 33
treatment outcome, 5, 107, 117, 253
treatment validity, 107
triple response system, 33, 107, 197, 223, 457
cognitive responses, 33, 107, 457
motor responses, 107, 457
physiological responses, 33, 107, 457

utility, 1, 33, 77, 107,223, 471

validity, 1, 53, 77, 91, 117, 253, 271, 471
external, 33
internal, 33
self-reports, 5
in basic research, 33
visual analysis, 139

weight, 443
deviant, and social competence ratings, 443
work setting, grouping patterns, 337

Zenith laptop computer, 139
